The Mayor has done an enormous amount of work and research to develop this mission statement and for that I would like to thank him.

3. Special Event Sculpture from Ryan Weber MAS.

Manager Aldrich Memo. Please find the request and diagram brought to the city by Ryan Weber from Manistique Area Schools. Ryan is bringing the request on behalf of the cad and welding class to build an emerald-shaped sculpture. The students would like to build and place the sculpture in Five-Points Park. Ryan and I spoke with Tom Lindeman from our Risk Management Par Plan. Tom has indicated that our insurance would cover it and there would be no problem with the sculpture as long as it contains no head-entrapment issues.

Ryan would work with the class to design it for safety concerns. The structure would be made of tubular steel projected to be 6 feet tall.

Ryan could not make the meeting, student Samantha Chartier was here to present the sculpture project.

Moved by Councilmember Rohde, seconded by Councilmember Walker

APPROVE the resolution for the Manistique Area Schools CAD/Welding class to build an emerald shaped sculpture at Five-Points Park as presented.

5. Council Committees.

Manager Aldrich Memo. I am happy to learn that Council members have expressed an interest in being more involved with city operations. We have an opportunity to form committees in areas of marketing and community development along with finance, budget, and personnel.

I realize that some on Council have other jobs, so please know that I appreciate Council's willingness to help in these areas and to take on the added workload.

It would be advantageous to have these two committees willing to meet monthly:

- Marketing and Community Development
- Budgeting, Finance, and Personnel

Also it might be advantageous for us to have an ad hoc committee for recreational marihuana and other laws.
